### **LEATHERBOARD PLANT** Sold by C. C. Case to New York Purchaser, Who Will Continue Industry.

The largest real estate transfer in years in the town of Columbia took place Saturday afternoon when the entire property at Hop River of the Case Leatherboard company, consisting of the large paper mill, six double cement houses and forty acres of land, was sold by the owner, Alderman Christopher C. Case of this city, to Leopold E. Ollener of New York city.

With the exception of four acres of land, Mr. Ollener's newly acquired property is in the town of Columbia. Mr. Ollener was in town for a short while Sunday before leaving for his home in New York city on the 4:15 train. He stated that he was a paper maker and would continue to run the plant and would also manufacture binder board stock as well as the leatherboard manufactured by Mr. Case. "I expect to enlarge the mill later on," said Mr. Ollener, "and increase the help and install more machinery. In a short while a company will be formed and possibly another line of business added. The plant is an excellent one. The new owner took possession Monday and will carry along the present force of twenty operatives under Foreman William Rourke. The property was known at one time as the Hop River Paper company, owned by the Jilleens of the city. For a long time the mill stood idle, until purchased by Mr. Case about ten or twelve years ago. Business was always good under Mr. Case's methods and the little village of Hop River has been greatly benefited thereby. Alderman Case said Monday that he had not decided what he would do. He will continue to reside in this city, however.

**MUNYON'S**  
**PAW-PAW**  
**PILLS**

Munyon's Paw Paw Pills are unlike all other laxative or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not grip; they do not weaken, but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition, and corrects constipation. In my opinion, constipation is responsible for most ailments. There are 26 feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produce rheumatism and kidney ailments. No woman who suffers with constipation or any liver ailment can expect to have a clear complexion or enjoy good health. If I had my way I would prohibit the sale of nine-tenths of the cathartics that are now being sold, for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it. These pills contain no calomel, no dope; they are soothing, healing and stimulating. They school the bowels to act without physic.
